Muhammad Zaigham

AI PRODUCT MANAGER | AGENTIC AI, LLM & RAG PRODUCTS | PRODUCT STRATEGY & ROADMAP

muhammadzaigham697@gmail.com | +1 (647) 360-2021 | Milton, Ontario, Canada | linkedin.com/in/mzaigham | zee-ailabs.github.io

PROFESSIONAL SUMMARY

- Senior AI Product Manager with **10+ years of product management experience** across B2C and B2B products in large enterprises, government, and an AI startup, leading cross-functional teams of 25+ across the full product lifecycle.
- Shipped **11 AI solutions to production** in 5 years (4 virtual assistants, 3 RAG and AI search, 4 agentic and document AI workflows), delivering **~CAD $3.3M a year** in savings and client value.
- Scaled an AI virtual assistant to **1M+ conversations a year at 80%+ containment and 8.5/10 CSAT** for 9M+ customers; a hands-on builder who prototypes with AI tools (see zee-ailabs.github.io), with depth in LLM selection, AI evals, guardrails, and cost-to-serve.

SKILLS

- **AI Product Management:** AI Product Strategy & Roadmapping | Agentic AI & AI Agents | Generative AI, Large Language Models (LLM) & Retrieval-Augmented Generation (RAG) | Conversational AI | Intelligent Document Processing (OCR) | Machine Learning & NLP | Semantic Search & Embeddings | Prompt & Context Engineering | LLM Benchmarking & Model Routing | AI Cost-to-Serve & Latency
- **AI Quality & Governance:** AI Evals (Golden Datasets, LLM-as-a-Judge) | Guardrails & Human-in-the-Loop | Responsible AI & AI Governance | Privacy by Design & PII Protection
- **Product Management:** Product Vision & Strategy | Product Lifecycle Management (Discovery to Sunset) | Market & Competitive Research | Product-Market Fit & MVP (0 to 1) | PRDs | User Research, Personas & Journey Mapping | User Experience (UX) & Wireframing | Product Analytics, KPIs & OKRs | NPS, Retention & Churn | A/B Testing & Experimentation | Pricing, Monetization & ROI | Go-to-Market (GTM) & Revenue Growth
- **Leadership & Delivery:** Executive & B2B Clients | Stakeholder Management | Cross-Functional Leadership | Agile, Scrum & SAFe | Vendor Management | Digital Transformation
- **Tools & Cloud:** Microsoft Azure | AWS | Google Cloud (GCP) | Jira | Confluence | Azure DevOps | Figma | Miro | SQL | Microsoft Power Platform | Power BI | Tableau | Google Analytics | REST APIs | SAP | Salesforce | Siebel CRM | BSCS | OpenText
- **AI Models & Tools:** OpenAI GPT | Anthropic Claude | Google Gemini | Microsoft 365 Copilot | Microsoft Copilot Studio | Azure OpenAI | Amazon Bedrock | Google Document AI | AI Prototyping (Claude Code, Codex, Lovable, Copilot Studio)

CERTIFICATIONS & EDUCATION

- SAFe 6 Product Owner/Product Manager (POPM) | SAFe 6 Agilist (SA) | Microsoft Certified: Azure Fundamentals (AZ-900) | Certified ScrumMaster (CSM) | PMP (PMI, 2026) | CBAP (IIBA, 2026) | Lean Six Sigma Black Belt (IASSC)
- York University, Canada | Product Management Certificate *Jan 2025 - Jul 2025*
- National University of Modern Languages, Pakistan | MBA in Marketing *Jan 2007 - Dec 2008*
- Punjab University, Pakistan | Bachelor of Science *Sep 2004 - Aug 2006*

EXPERIENCE

AI Product Manager | Hrudai, Canada **May 2026 - Present**

AI startup delivering intelligent automation solutions

- Own vision, roadmap, user discovery, PRDs, and success metrics for a portfolio of AI solutions (agentic workflows and virtual assistants) across insurance, fintech, and real estate clients, delivering ~CAD $450K in annualized client value; took 2 of 8 scored automation opportunities to production within 4 months.
- Launched agentic AI document workflows on Azure and AWS with tool calling and human review, cutting complaints by 28% and processing time per file by 44% (25 to 14 min), and freeing ~450 team hours a month.

- Benchmarked 6 frontier LLMs and introduced model routing by task complexity, cutting cost per query by 30% at equal accuracy with p95 response time under 3 seconds.
- Built the AI eval and guardrail framework (200-case golden dataset, LLM-as-a-judge, grounding checks, human escalation), cutting hallucinations from 15% to under 4% and lifting task success to 92%.
- Launched real estate virtual assistants that answer property questions, qualify leads, and book viewings 24/7, resolving 60% of routine inquiries without an agent.

Product Manager, Digital Transformation | Ras Al Khaimah Municipality, UAE **Apr 2025 - Apr 2026**

Government municipality serving residents, businesses, and engineering consultants

- Owned product strategy, user research and roadmap delivery across Urban Planning, Land & Property, Urban Development, and Public Health platforms, creating a unified digital service ecosystem.
- Delivered OCR document AI on Google Cloud to validate trade licences, Emirates IDs, land documents, and NOCs, reaching 70% straight-through validation and cutting manual verification time by 55%.
- Launched a 0-to-1 GenAI knowledge assistant (RAG over 300+ procedural PDFs) for 120+ engineers and inspectors, cutting time to find procedure answers from ~15 minutes to under 2.
- Redesigned Drawing Review journeys, workflows, and validation rules on the citizen portal, reducing repeat submissions by 18% and raising first-pass review accuracy from 78% to 90%.
- Owned a transformation portfolio of 20+ initiatives with OKRs, governance, and RAID controls; led Privacy Impact and Threat and Risk Assessments (PIA, TRA) to clear releases for production.

AI Product Manager | du (Emirates Integrated Telecommunications), UAE **Jan 2022 - Dec 2024**

Publicly listed telecom and digital services provider with 9M+ customers

- Owned strategy, roadmap, and backlog for 5 AI and digital products (Intelligent Search, AI Virtual Assistant, Digital Self-Service, WhatsApp Support, Digital Commerce), leading 25+ engineers, data scientists, designers, and vendor partners.
- Scaled the AI Virtual Assistant to 1M+ conversations a year at 80%+ containment and 8.5/10 CSAT, growing digital self-service by 12% and saving ~CAD $2.4M a year in contact centre costs.
- Delivered RAG-based troubleshooting journeys grounded in enterprise knowledge and real-time diagnostics, adding 30+ intents and shifting 7% more contact volume to self-service.
- Shipped tool-calling assistant flows using real-time account data to resolve line barring and ID-expiry suspensions end to end, removing ~8,000 agent contacts a month.
- Set guardrails and human-in-the-loop escalation (grounding, authentication, sentiment, prompt-failure thresholds) to protect customer PII, cutting agent handoffs from 22% to 17%.
- Prioritized 200+ initiatives using customer interviews, focus groups, and RICE; set success metrics, latency and cost-to-serve targets, and release thresholds with engineering and UX.

Product Owner | du (Emirates Integrated Telecommunications), UAE **Feb 2015 - Dec 2021**

- Owned backlogs for enterprise digital products across mobile app, web, CRM, and customer-support platforms serving 9M+ customers, across 3 Agile Scrum teams.
- Delivered 80+ digital customer journeys, 20+ CRM enhancements, and 60+ API integrations, helping grow the digital share of service transactions from 25% to 40%.
- Translated business and customer needs into epics, user stories, and acceptance criteria; ran backlog refinement, sprint planning, and Agile ceremonies.
- Coordinated 200+ SIT/UAT cycles, defect triage, and production-readiness reviews, sustaining a 95%+ on-time release rate.

Process Improvement Specialist | Ufone (Etisalat Group), Pakistan **Mar 2009 - Feb 2015**

- Led ISO 9001:2000 Quality Management System (QMS) certification for Customer Operations across contact centres, retail, collections, and customer service.
- Modernized CRM for 3,000+ users by migrating to a web-based platform, cutting average handling time by 15%.
